SUMMARY

Experienced professional adept in both Java Full Stack development and process management. Skilled in leveraging Java frameworks like Spring and Hibernate to build robust applications, with proficiency in front-end technologies such as Angular and React. Proven ability to streamline operational workflows through meticulous process execution, data analysis, and continuous improvement initiatives. Strong communicator and collaborator with a commitment to delivering high-quality results in dynamic environments.

EXPERIENCE

Process Executive | Dhandhania Infotech Pvt Ltd | Nagpur, Maharashtra | June 2023 - Present

- Successfully execute daily operational processes with a focus on achieving a 99% adherence rate to established guidelines and standards.
- Maintain a 98% accuracy rate in outputs by conducting thorough quality checks and implementing corrective actions as needed.
- Analyze data to identify process improvements and implement solutions to enhance efficiency and productivity.
- Collaborate with team members and stakeholders to streamline workflows and achieve operational objectives effectively.

EDUCATION

Bachelor of Engineering in Computer Science and Engineering | Rashtrasant Tukadoji Maharaj Nagpur University (RTMNU) | 8.86 CGPA

Nagpur, Maharashtra | 2022

High School in General Science | Abhinandan High School and Junior College

Nagpur, Maharashtra | 2018

School | Sharda Mahila Mahavidyalaya

Nagpur, Maharashtra | 2016

PROJECTS

Moving Object Detection Using Multiple Camera's in Network.

| Tulsiramji Gaikwad-Patil College of Engineering and Technology (TGPCET) | June 2021 - June 2022

- Real-time human body detection and tracking in indoor environments utilizes advanced image processing and computer vision techniques.
- Key components involve achieving a feature extraction accuracy of over 95%, implementing background image subtraction with a precision rate exceeding 98%, and ensuring robust feature identification capabilities.
- This project aims to track individuals with high 99% accuracy, providing critical details such as orientation and attributes like area, shape, and color.

CERTIFICATIONS

Java Full Stack Developer | Qspider | 2023

- Certified Java Full Stack Developer course equips you with comprehensive skills in both front-end and back-end development using Java technologies. Learn to design, develop, and deploy robust web applications, mastering frameworks like Spring and Angular.
- Gain hands-on experience with databases, RESTful APIs, and cloud deployment, ensuring you're ready to excel in today's dynamic software development industry.

SKILLS

Front-end: HTML5, CSS3, JavaScript, and modern frameworks like Angular or React.

Back-end: PHP, MySQL, or MongoDB.

Programming languages: C++, Java and PHP

Frameworks: Laravel, Spring, and Hibernate

Others: Data analysis and reporting, Process documentation, Workflow management, Excellent communication, Interpersonal skills.
